**ENVIRONMENTAL SYSTEMS RESEARCH INSTITUTE, INC.
DATA AND SOFTWARE PERMISSION FORM**

Pix4D

("Contributor") grants

Environmental Systems Research Institute, Inc., ESRI GLOBAL, INC. (hereinafter collectively "**Esri**"), and Esri authorized International Distributors the express, nonexclusive, royalty-free, worldwide license and permission to use, copy, adapt, edit, modify, merge, translate, reproduce, (re)publish, publicly display and perform, (re)distribute, and/or (re)broadcast the Contributor's data, models, software, scripts, or related materials (hereinafter collectively referred to as the "Work") as more fully described in Exhibit 1 herein for any marketing or business purposes ("Purposes") in any format or medium of communication now known or later developed. Purposes include, but are not limited to, the following types of uses: Esri software releases and documentation, general marketing and promotional activities, demonstrations, benchmarks, trade shows, seminars, educational or training materials, books, web pages, web demonstrations, graphic snapshots, and animation/video clips.

Please note any exceptions or restrictions to the use rights granted above:

Cannot be associated to other drones than Ascending Technologies ones

Once permission has been granted, Esri and Esri authorized International Distributors shall have the continued right to use and redistribute Contributor's Work until such time as Contributor provides written request that such use rights shall cease. Thereafter, Esri and Esri authorized International Distributors may continue their right to use Contributor's Work until the current inventory of tangible materials, in any format, has been exhausted or undergoes a substantial revision, whichever comes first.

In consideration for the use rights for which permission has been granted above and in order to assist Esri in the proper usage of Contributor's Work, Contributor requests the following attribution notice(s) accompany Contributor's Work:

Contributor **copyright** attribution notice (e.g., "Copyright © <insert year(s)> <insert name of copyright owner(s)> All rights reserved."): Copyright © Pix4D

Contributor **source** attribution notice: Source: Ascending Technologies

Contributor **trademark** attribution notice: _____

Contributor represents and warrants it owns and/or has the license rights to grant permission to the Contributor's Work provided herein. To the best of Contributor's knowledge and belief, Contributor's Work does not misappropriate or infringe upon the intellectual property or proprietary rights of any third party. Further, Contributor represents and warrants that Contributor's Work does not contain any information that is unlawful, libelous, or violative of any person's right to privacy or publicity. Contributor agrees to defend, indemnify, and hold harmless Esri and Esri authorized International Distributors, as applicable, and its directors, officers, employees, and contractors from and against any and all liability, expense, costs, and/or damage arising out of Contributor's failure to meet the obligations of this Agreement.

Accepted and Agreed:

By: _____

Authorized Signature of Contributor

Printed Name: Lorenzo Martelletti

Title: Sales & Marketing Director

Date: 28/01/2016

Please complete, print, and sign this form. Return to Esri:

Fax the signed copy to _____ Attention: _____;
OR

E-mail a scanned digital signed copy to Anthony Mason <amason@esri.com> ;
AND/OR

Mail the original to Esri Contracts and Legal Services Dept., 380 New York Street, Redlands, CA 92373, Attention:
Global Web Strategies Team, Contract Administrator.

Esri staff: Forward the signed original and electronic copies to Global Web Strategies Team (Contracts-GWS@esri.com)
Attention: Contract Administrator.

EXHIBIT 1
DATA AND SOFTWARE PERMISSION FORM

A. Description of Work

1. Name of data. Please provide a detailed description:

Building Imagery from AscTec Falcon 8 UAV (for 3D modeling), Germany

2. Data Type: Please identify (e.g., Shapefile, Coverage, Personal Geodatabase, ArcSDE Exports, Raster files, and format type, etc.)

Raster files (JPG)
Pix4D project file (.p4d)

3. Is the data accompanied by FGDC- or ISO-compliant metadata?

No ☒

Yes ☐ If Yes, please include a digital copy of said metadata with any data provided to Esri.

4. Name of software, models, or scripts. Please provide a detailed description:

5. Name of any other related materials. Please provide a detailed description:

6. Name of contact person at Esri who will be responsible for receiving the data: Anthony Mason

a. Esri contact person's department: Imagery Services

b. Please identify how the received data will be used:

The data will be available as sample data Drone2Map users can download.

B. Export Control Law and Licensing Compliance

1. Does Contributor's Work to be incorporated into the Esri deliverable contain any encryption, cryptography, or encryption capability? For the purpose of answering this question, "encryption" means the discipline that embodies principles, means, and methods for the transformation of data in order to hide its information content, prevent its undetected modification, or prevent its unauthorized use by use of one or more "secret parameters" (a constant or key kept from the knowledge of others or shared only within a group) and/or associated key management. For additional definitions, please see US Department of Commerce Bureau of Industry and Security for Export Administration Regulations (15 CFR Sections 742.15 and 772.1).

No ☒ If no, proceed to question 2 below.

Yes ☐ If yes, please provide details by answering the Export Control Law and Licensing Compliance Questionnaire in Exhibit 2.

2. Does Contributor's Work to be incorporated into the Esri deliverable contain any open source code software libraries, modules, or DLL components?

No ☒ If no, thank you for assisting Esri in being in compliance with US export control laws and licensing requirements.

Yes ☐ If yes, please provide details by answering the Export Control Law and Licensing Compliance Questionnaire in Exhibit 2.

EXHIBIT 2
EXPORT CONTROL LAW AND LICENSING COMPLIANCE QUESTIONNAIRE

As a US company operating in a post-9/11 world, Esri must be in compliance with US export control laws. Before Esri can provide access to, redistribute, publicly display, or otherwise transfer any Esri demo, book, brochure, animation/video clip, etc., Esri needs to know the export control classification of Contributor's Work as incorporated into the Esri deliverable, as that classification may or may not affect the overall classification of the Esri deliverable. Thank you in advance for your cooperation and assistance in completing this questionnaire.

1. What is the US Government Export Commodity Control Number (ECCN) for Contributor's Work provided herein?

(Additional information on ECCNs can be found at www.bis.doc.gov)
2. Has the Department of Commerce, Bureau of Industry and Security (BIS) issued a Commodity Classification Automated Tracking Systems (CCATS) number for Contributor's Work provided herein?

Yes ☐ If yes, please attach a copy of the CCATS letter to this questionnaire.
No ☐

3. If Contributor does not have an ECCN number for Contributor's Work, please review and answer the following:

Encryption Questions

Does the Contributor's Work contain encryption or encryption capabilities? If so, please identify by answering the following questions. Please also separately answer the following questions for any third party component or any open source code component that contains encryption or encryption capabilities.

- a. Does Contributor's Work perform "cryptography" or otherwise contain any parts or components that are capable of performing any of the following "information security" functions? *(Please check all that apply.)*
- i. ☐ Encryption
 - ii. ☐ Decryption only (no encryption)
 - iii. ☐ Key management/public key infrastructure (PKI)
 - iv. ☐ Authentication (e.g., password protection, digital signatures)
 - v. ☐ Copy protection
 - vi. ☐ Antivirus protection
 - vii. ☐ Other (please explain): _____
 - viii. ☐ NONE/NOT APPLICABLE
- b. For items with encryption, decryption, and/or key management functions (3.a.i, 3.a.ii, 3.a.iii above):
- i. What symmetric algorithms and key lengths (e.g., 56-bit DES, 112/168-bit Triple-DES, 128/256-bit AES/Rijndael) are implemented or supported? _____
 - ii. What asymmetric algorithms and key lengths (e.g., 512-bit RSA/Diffie-Hellman, 1024/2048-bit RSA/Diffie-Hellman) are implemented or supported? _____
 - iii. What encryption protocols (e.g., SSL, SSH, IPSEC or PKCS standards) are implemented or supported? _____
 - iv. What type of data is encrypted? _____
- c. For Contributor's Work that contains an "encryption component" can this encryption component be easily used by another product, or else accessed/retransferred by the end user for cryptographic use?
- Yes ☐ No ☐

4. Specify whether or not Contributor's Work, or any portion thereof, was originally created specifically for military purposes. Was Contributor's Work originally designed, developed, configured, adapted, or modified specifically for a military application? Does Contributor's Work have significant military or intelligence applicability? Can Contributor's Work, or any portion thereof, be used for chemical weapons, biological weapons, nuclear weapons, or missile technology, and if so, describe how.

5. End Use Questions

- a. Is Contributor's Work used in any of the following:

- | | | |
|---|------------------------------|-----------------------------|
| i. Electrical power generating activities? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| ii. Nuclear purposes or activities? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| iii. Chemical or biological weapons activities? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| iv. Missile purposes or activities? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |

- b. Can Contributor's Work be used for hydrodynamic calculations modeling? Yes ☐ No ☐

- c. Is the software/item used in the telecommunications industry? Yes ☐ No ☐

- i. If so, briefly explain how it is used. _____

- ii. Is it essential for operation and support of telecom industries? Yes ☐ No ☐

- d. Is Contributor's Work used in conjunction with or support of laser technology? Yes ☐ No ☐

- e. Additional questions for data only:

- | | | |
|--|------------------------------|-----------------------------|
| i. Is the data telemetry and control data? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| ii. Is the data GPS data? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |
| iii. Is the data classified? | Yes <input type="checkbox"/> | No <input type="checkbox"/> |

6. Open Source Code Licensing Compliance

If Contributor's Work contains any open source code software, module, or DLL components:

- a. Please attach a copy of the corresponding open source code license agreement, and
- b. Please identify whether or not the open source code software, module, or DLL component contains encryption, cryptography, or encryption capability. If yes, please separately answer the questions posed in this Exhibit 2 for all open source code software, modules, or DLL component(s) containing encryption.
